9/ Automated / Manual processing operation

7) Description of Processing:

Attention: Please describe in the answer to this question if you process personal data falling under article 27 "Prior-Checking (by the EDPS - European Data Protection Supervisor)"

Within the framework of a coordination case, the investigation unit provides assistance and contributes to investigations carried out by competent national authorities. It facilitates the collection and exchange of evidence and ensures investigation synergy among the relevant competent authorities.

The investigation unit does not conduct investigations, however it may participate in the investigations conducted by the national authorities.

Please see the attached OLAF Instructions to Staff on Investigative Procedures, and in particular Chapter II.

This process operation is subject to prior checking under Article 27.

8) Automated Processing operation(s):

A central database, the Case Management System (CMS), is used to manage all of OLAF's coordination cases. All documents related to a case, including reports, notes, correspondence and all other events related to a case are recorded in the CMS. This includes those related to the implementation of OLAF's recommendations. The OLAF staff member (investigative unit) in charge is given access rights to the CMS file and is responsible for updating the system in a timely manner and monitoring the completeness of details and documentation for his case. For further details, see the CMS notification (DPO-73).

9) Manual Processing operation(s):

The OLAF Greffe maintains the official cases in paper form in a uniform manner, in compliance with Commission Decision 2002/47/EC, ECSC, Euratom, OJ L 21. OLAF case handlers may keep their own working files for the cases assigned to them, containing only copies of documents. When the implementation has been completed, the staff in charge hands over to the Greffe all case-related documents. The Greffe staff will compare the two sets of files (original and copies), ensuring that the Greffe file is complete and destroying duplicate documents.

10/ Storage media of data

CMS electronic data is stored in an Oracle database within OLAF's independent network. Paper data is stored in the OLAF Greffe and in working files of the investigative unit. For further details see notifications for the CMS (DPO-73) and IT infrastructure (DPO-97).

11/ Legal basis and lawfulness of the processing operation

11) Legal basis of Processing:

The legal basis for coordination cases is Article 1(2) of EP/Council Regulation (EC)1073/99 and sector specific legislation where applicable.

12) Lawfulness of Processing:

Answering this question please also verify and indicate if your processing has to comply with articles 20 "Exemptions and restrictions" and 27 "Prior checking (by the EDPS)"
