EDPS: A young and dynamic institution

The EDPS was established in Brussels in 2004, and as the European's Union independent data protection authority, the EDPS aims to serve as an impartial centre of excellence for enforcing and reinforcing EU data protection and privacy standards, both in practice and in law.

It has about 100 staff members, most of which are EU officials but also contract agents and Seconded National Experts working full or part-time.

EDPS: A great place to work

We believe that a good working environment is a precondition to ensure staff engagement and well-being and that it is essential to strike a good balance between work and private life. To this end, we provide staff with a modern working environment using familiar IT tools, and good balance between work and private life (using flexitime and telework).

EDPS: A place to grow and develop your career in an EU institution

Our staff enjoys a high level of autonomy and diversity of tasks, working in small, dynamic teams. We have developed an ambitious "Learning & development policy" to foster personal development and to improve personal skills and competencies. Also we encourage and fully support AST colleagues who are eligible to participate in the Certification Programme.

Our staff benefit from the same mobility policy as the larger EU institutions such as the Commission, Parliament and the Council, because the EDPS is treated as an EU institution for the purposes of the Staff Regulations and the Financial Regulation. As a result, staff can transfer their grade, step, seniority and all the other career elements seamlessly between the EDPS and any of these institutions. The EDPS can be a useful career step for established officials who would like to work with us for a while and then return to continue their careers long-term within the larger institutions.
