

Note to the file 2015-0786 - Consultation Frontex implementing rules for PeDRA

This consultation is in fact part of the follow-up to the PeDRA prior check opinion [2015-0346] and will be dealt with in that case.

The reason why Frontex consulted separately on this is that under Article 11a, second subparagraph, there's a specific obligation to consult us before adopting implementing measures. Compared to 28(1) of Regulation (EC) 45/2001, it's more explicit on consulting the EDPS before, so that is why they were notified separately.
