**Subject:** 2019-0802 Agenda - International Organisations online meeting - 8 & 9 October 2020

Dear colleagues,

It is our pleasure to share the agenda for the online meeting of International Organisations taking place on the afternoons of 8 and 9 October 2020.

The meeting platform we will use is called WebEx. We will send you the connection details a few days before the meeting.

As many of you who have attended in the past already know, the Workshop is a unique opportunity to share experiences, best practice, concerns and updates relating to data protection from the perspective of international organisations.

To this end, we invite each international organisation to prepare a short (3 minute) intervention in advance, outlining your level of preparedness and lessons learned. We will call on one person from your organisation to share this experience during the Q&A/discussion portion of session 2.

For the sake of efficiency, we also invite participants to send questions in advance for any of the sessions or speakers if you would like to raise a particular point. You will of course also be able to pose questions as they arise during the meeting.

Should you no longer be in charge of privacy/data protection matters within your organisation, please do not hesitate to forward this message to the appropriate colleague.

For any questions, please email [EDPS-Events@edps.europa.eu](mailto:EDPS-Events@edps.europa.eu)

Sincerely,  
The EDPS Organising Team

# Workshop: Data Protection within International Organisations

8 October 2020 14:30-17:30

9 October 2020 15:00-17:00
