**Subject:** AW: KEYP- short question to all members

Dear [REDACTED]  
would it be possible for you or your Colleagues from the Sec to create the post on Confluence and inform the KEYP members by email as [REDACTED] suggested?  
That would be very helpful.  
Depending on the number of answers on Confluence I could then decide whether to raise the point additionally in the KEYP.  
Thanks to [REDACTED] as well.  
Kind regards  
[REDACTED]

**Betreff:** RE: KEYP- short question to all members

Dear [REDACTED],

Yes of course, it is absolutely ok for me to consult KEYP members on this question.

As to the format of the consultation, if it is agreeable to you, you may also create a new Post in the KEYP forum (or ask SECR to create it?) and ask the SECR to inform KEYP members by email that a new post is created and that members are requested to contribute. This way you minimise the number of emails and all colleagues can actually benefit from the feedback received.

In addition, you may also raise this point orally at the next KEYP meeting under AOB.

Best,  
[REDACTED]

**Subject:** RE: KEYP- short question to all members

Dear [REDACTED] Dear All,

From the SEC side we see no problem with making such query (also, as I'm Polish, I can confirm that we have at least 5 data protection authorities supervising processing of data by different churches in Poland) or discussing it as an AOB item. We leave the decision to [REDACTED]

Best,

**Subject:** KEYP- short question to all members

Dear [REDACTED]

dear [REDACTED],

dear [REDACTED]

would it be possible to ask all members of KEYP via e-mail just to get a quick answer if there are any member states besides Germany where Supervisory Authorities on the basis of Article 91 (2) GDPR have been established? (irrespective of whether or not the national SAs have already assessed if the conditions of Art 91 (1) and (2) are fulfilled).

Or should I postpone the question until the next meeting under A.o.b.?

Thank you

Kind regards

[REDACTED]
